

DONALD R. BARG PARK

1435 WHISPERING WATER LN.

This 4.5 acre park was dedicated to the city through the Park Land Dedication Ordinance in 2011 with the development of the Watercrest at

Mansfield gated community. Park amenities include walking trail, fishing pond, playground and two gazebos.

It is named after Donald R. Barg who served as a member of the Mansfield Park Facilities Development Corporation (MPFDC) from 1992 – 2008. During Don's tenure, the MPFDC significantly expanded the Mansfield parks system, purchasing more than 500 acres of land for parks, athletic facilities and open green space.

According to the 2009 Parks, Recreation, Open Space & Trails Master Plan, this park will also connect with the Hog Pen Branch Linear Trail in the future.
